- Fine grade and pave four locations on Olympic Hot Springs Road (Elwha sub-district) and one location on Mora Road (Mora sub-district) within Olympic National Park, WA.

## Key Factors Contributing to the Success

### • *Persistency*

Persistency is one of the main characteristics of GDI staff. They don't get tired and keep working till they reach the result.

### • *Quality Control*

Green dream was committed to supply the required specification at all costs. So it took every measure to search and find the best material available in the area and finally did achieve the goal.

### • *Management*

The key element of success in this project was close and momentary control over all aspects including time, quality, probabilities, possible delays and ... We did not fear to face the problems. Instead we had the determination to solve them.
